What is the maritime industry?

Exciting and diverse, the maritime industry is an awesome career choice.

A global line of business that relates to the sea, the maritime industry gives you the opportunity to work with boats, yachts, commercial ships and the wider nautical environment.

Seafaring or shore-based, there are hundreds of great jobs that make up the industry – naval architects, marine surveyors, marine engineers, geologists, oceanographers – even law, finance and IT can become your path to success in a maritime career!

What is the Cayman Registry?

A division of Cayman Maritime, the Cayman Registry is responsible for all vessels that register in the Cayman Islands and for those that visit the islands. This means they have to inspect every ship on its register, wherever it may be! From Miami to Monte Carlo, St. Tropez to Singapore, the Cayman Registry travels to ports all over the world.

But that's not all, the Cayman Registry is also involved in ship building, maritime safety and security, marine pollution prevention, policy development, accounting, communications, technology and human resource management.

As you can see, the Cayman Registry offers a world of opportunities!

Established in 1903, the Cayman Registry is recognised as one of the best in the industry. With its headquarters in George Town, the Cayman Registry also has offices in France, Greece, Japan, Hong Kong, Italy, The Netherlands, Singapore, UK and USA.

Did you know? The Cayman Registry is a world leader for the registration of large yachts but also caters to tankers, other merchant ships and submarines!

Where can a job in the maritime industry take me?

Wherever you want to go in life, the maritime industry can take you there. Whether on deck, exploring the world or firmly on solid ground, the maritime industry offers you fantastic opportunities in almost every discipline.

SEA-BASED CAREERS INCLUDE:

What is the Maritime Scholarship?

The Maritime Scholarship is your ticket to an incredible and rewarding career in one of Cayman's leading industries.

Each year, Cayman Maritime - in partnership with the Ministry of Education - offers young Caymanians the opportunity to earn their undergraduate, postgraduate or professional qualification in any of the following areas:

- Marine engineering
- Marine surveying
- Maritime administration
- Nautical studies
- Naval architecture

Consideration is also given to specialist areas that support the industry such as maritime legal services, human resource management, accounting and IT.

“I'm truly grateful for receiving this scholarship. As an avid sailor, it has allowed me to pursue a career in an area that I am most passionate, the sea. Currently, I'm in my first year at Plymouth University (UK), studying marine engineering. So far it has been great and I'm really enjoying the course. Overall, I am really happy and can't help but feel as if this has allowed me to carry on something that is so deep in our history.”

Shane McDermont, 2017 Scholarship Recipient

“I was able to push myself to new heights. The scholarship has enabled me to broaden my horizons as it has provided me with the opportunity to further my education in an amazing overseas environment. I am currently studying at Liverpool's John Moores University, which is one of the leading maritime universities in England, and I couldn't ask for a better experience.”

Kayla Martin, 2014/2015 Scholarship Recipient

“I took math, chemistry, physics and art for A Level and studied Small Craft Technology at Newcastle University. I'm really glad I joined the Cayman Registry - the people are friendly and I feel part of a great team with a bright future ahead of me.”

Vassel Godfrey Johnson III, Surveyor, 2008 Scholarship Recipient

“The best part about my job is being able to travel. I also appreciate the opportunity to make shipping safer and cleaner- my job directly affects the lives of seafarers and the state of the marine environment.”

Saagar Kadiyala, Surveyor, 2007 Scholarship Recipient
